

Information about 10-month rent (10-månadershyra)

All single rooms, and one room flats with a kitchenette (kokskåp), have a 10-month rent, with the exception of Dr Forselius Backe where a 12-month rent is applied.

A 10-month rent means that the annual rent is spread over a period of ten months instead of twelve; no rent will be collected during the two summer months (normally June and July).

Those who move into a single room in April, May, June or mid July will pay a 12-month rent during these months, but from the 1 August a 10-month rent will apply, and you will pay no rent for the two summer months of next year.

If you should leave your room before the beginning of June, you will not be granted any rent reduction.

Those who already rent a single room with a 10-month rent and want to move to another room may keep the same conditions as in the previous contract.

If you have any questions about this, please contact the Housing Office.
