

## SGS Hemma

- Make sure that the broadband router or computer is connected correctly into the socket in the wall.
- There is only one active network socket in apartments with [Several Internet sockets](#).
- If you can't access <https://hemma.sgs.se>, try following address <http://10.60.0.1>.
- Contact [SGS Datanätgrupp](#) if you can't access SGS Hemma.

Type of rental contract:  
Common student lease (primary tenant renting directly from SGS)

Customer number  
Enter your SGS customer number. You will find it halfway down on your SGS housing contract. Do not enter your login code from SGS "Mina sidor".

Termination date (yyyy-mm-dd)  
If you already have a set date for moving out, we recommend that you enter it here. Then the connection will automatically be stopped on that date, thus ensuring that the next tenant cannot use the connection in your name.

**Computer name**

Your computer name identifies your computer on the Internet, and is visible to everyone. You should therefore pick a name that means something to you, while at the same time having no obvious link to you as a person. Only SGS knows who is using a certain computer name. The computer name must be at least 4 characters long, and may consist of letters a-z, digits 0-9 and -.

I have familiarized myself with the rules described in the document entitled "Rules for SGS Studentbostäder's Internet service in apartment", dated 2022-10-26, and undertake to observe these. I have also familiarized myself with SUNET's ethical rules and also undertake to observe these. I am also aware that any breach of these rules following a warning may lead to my apartment being disconnected permanently without the change for the connection being deducted from my rent. Temporary disconnection can be done during an inquiry.

I am aware that the rules for use of the network can be changed, either via legislation or via changed rules from Sunet, or via changes to the local rules, and I undertake to keep myself informed of regulations in the form in which they are published on the network.
