

GUIDE FOR ACTIVATION

SGS HEMMA

1. Click on begin activation.

2. Choose type of rental contract.

3. Type in your customer number that can be found in your rental contract with SGS.

Foreign exchange students, renting through Chalmers or Gothenburg University, don't have to type in a customer number.

4. The termination date can be empty if you are not sure when the moving out date will be.

5. Type in your contact information.

★ Activate Internet

Computer name

Your computer name identifies your computer on the Internet, and is visible to everyone. You should therefore pick a name that means something to you, while at the same time having no obvious link to you as a person. Only SGS knows who is using a certain computer name. The computer name must be at least 4 characters long, and may consist of letters a-z, digits 0-9 and -.

7. The final step is to approve the rules from SGS and SUNET.

8. Click confirm to complete the registration.

The screenshot shows the 'SGS Hemma' interface for activating internet. At the top, there's a header with 'SGS Hemma', a user profile 'Toni Söder Åsa', and an apartment number '998000001'. A button 'Activate Internet' is visible. The main content area is titled 'Confirm' and contains a detailed text block about the user's agreement to the rules of SGS Studentbostäder and SUNET. Below this, there are fields for rental contract type, termination date, responsible party, contact details, and chosen computer name. At the bottom, there are two checkboxes for agreement to the rules and data handling, followed by a 'Confirm' button and a 'Back' link. The footer contains copyright information for 2025 SGS Studentbostäder.

Confirm

I have familiarised myself with the rules described in the document entitled "Rules for SGS Studentbostäder's Internet service in apartments", dated 2022-10-28, and undertake to observe these. I have also familiarised myself with SUNET's ethical rules and also undertake to observe these. I am also aware that any breach of these rules following a warning may lead to my apartment being disconnected permanently without the charge for the connection being deducted from my rent. Temporary disconnection can be done during an inquiry.

I am aware that the rules for use of the network can be changed, either via legislation or via changed rules from Sunet, or via changes to the local rules, and I undertake to keep myself informed of regulations in the form in which they are published on the network.

Type of rental contract: Foreign exchange student (E.g. Erasmus and others, renting through Chalmers or Gothenburg University))

Termination date:

Responsible: SGS Datanätgrupp
1970-01-01

Contact details: kundservice@sgs.se
0313336300

Chosen computer name: datanätgrupp

☐ I agree to abide by SGS' and SUNET's rules.

☐ I approve that SGS Studentbostäder handle my information according to Swedish law (1998:204).

Please note that this registration is only valid in your current apartment.
